

Super-Absorbable Tocotrienols

60 softgels

Item Catalog Number: **01400**

The adult scalp loses about 100 hairs every day which will grow back in 5-6 weeks as a result of normal hair cycling. However, starting at the age of 40, hair follicles *shrink*, causing hair to grow back *thinner*, or worse, *not at all*. This *devastating* hair loss is experienced by *half* the population. While the prevention and treatment is complex, using a supplement with *tocotrienols* can be pivotal in addressing the various physiological mechanisms that lead to thinning hair.¹

Super-Absorbable Tocotrienols combats the underlying causes of hair loss, supporting otherwise healthy hair follicles that genetic disposition, advancing age, high concentrations of DHT (the male hormone *dihydrotestosterone*), and sebum build-up may cause to weaken, degrade or shrink. Super-Absorbable Tocotrienols — a natural, orally administered, bio-enhanced tocotrienol complex — can be taken to support *youthful hair* thickness and growth.

Through a revolutionary, patented delivery system, Super-Absorbable Tocotrienols ensures optimal absorption²⁻⁷ and efficiently delivers the benefits of a unique proprietary complex of *phytonutrients* (squalene, phytosterols, trace amounts of mixed carotene and coenzyme Q10) naturally extracted together with tocotrienols to support youthful hair growth, hair health and hair density. In an unpublished study involving 30 volunteers who took tocotrienol supplements for eight months, nearly all the subjects showed significant improvement in hair thickness and density.¹
