Benefits of Bee Pollen:

Bee Pollen is a fine powder-like material produced by honey bees from flower pollens mixed with nectar and bee secretions. During ancient times, people throughout the world used bee pollen for its health-sustaining properties and it is still used today for its rejuvenative properties.* Bee Pollen is natural and highly nutritious. It is endowed with a wide range of nutrients and enzymes.*

● Nutrient-dense superfood*

● Non-altered, natural form of Bee Pollen*

Natural color variations may occur in this product. Keep in a cool, dry place with lid tightly closed.
